

Remote Office Service

Do you have problems connecting multiple office locations and managing employees in remote locations? bluArc's solution connects everyone, everywhere—transforming communications between co-workers and clients.

bluArc's service interconnects remote offices from a data and voice perspective. You can tailor your communications around your business needs by either integrating remote offices or redirecting calls to groups. With bluArc, you'll always feel connected.

When you connect remote locations you offer your employees more flexibility. You keep them connected and communicating at anytime, and anywhere. Whether they're in Brussels, Belgium or Beijing, China; Kabul, Afghanistan or Canberra, Australia, they'll be able to seamlessly communicate with colleagues in Canada—and anywhere else you have offices.

Utilizing teleworker technology, our service works efficiently and effectively in remote locations. Whether you have permanent or temporary work locations, we can set them up quickly, using secure voice connections.

With bluArc's Remote Office service, you'll have the reliability, simplicity and flexibility of an IP-based solution.

Please call us if you'd like more information on connecting your remote locations.

"bluArc's system allows me to function efficiently regardless of location. When traveling on business or working from home I communicate with my clients easily with no interruption to my work. bluArc responds quickly to requests for assistance and keeps me advised and up to date. They've been really helpful in adapting the system to meet current business needs."
